

# The New Face of Her Interactive

Welcome back! So for the new year, we finally added something that we've been working on for quite some time now, a new website. We hope that you enjoy the new look as much as we've enjoyed designing it. To help you get used to the new site, here's a walk-through of some of the cool features we've added.

**Expanded Content** – We're happy to announce that we've added more screenshots, and even more captions to each page. This means extra content for you! We raided our archives for hidden art and information. Be sure to check out the game pages and re-visit some of our early releases!

**Better Navigation** – With the release of Nancy Drew on Wii and the new Dossier series, we have altered the layouts of the pages, in order to make it much easier to find the content you are looking for! We organized our games by platform and brand for easy browsing. Plus the [minigames](#) and [trailers](#) now have their own pages.

**Dazzling Colors** – Burgundy?!? But of course. The site's exciting new colors match our newly re-designed logo. We've attempted to make the experience beautiful and clean; we're quite sure Nancy would approve of our taste.

**Inside Info** – With the quick-linked "Inside Scoop" you can easily access our content pages like the blogs and message boards, in addition to a new section that includes a few helpful hints and tips for some of our more puzzling games. It's a good place for a sleuth to snoop about!

So what do you think?!? There is so much to discover on our new website, so be sure to stop by play around. In addition, the [message board](#) will be changing soon to match the homepage. If you're not a member already, [sign up](#) and join in with other Nancy fans.

Nancy Drew has finally made it to the Nintendo Wii! Check out the first Nancy Drew Wii game, [The White Wolf of Icicle Creek](#). And for a different sleuthing experience try our new casual-oriented series, [Nancy Drew Dossier: Lights, Camera, Curses!](#) available now for download!

Check the ['Dare to Play' blog](#) for more information about upcoming games and behind-the-scenes information. If you haven't played [The Haunting of Castle Malloy](#) and [The Phantom of Venice](#) yet, order online at [www.HerInteractive.com](http://www.HerInteractive.com) or look for the games in all major retailers.
