In *The Phantom of Venice*, there are a lot of new things for players to experience that we've never done in the games before! Here are just some of the cool 'firsts' for Nancy Drew in this game:

**SEE NANCY** - For the first time, players get to see Nancy in her entirety! We've hidden her in shadow, showed part of her hands and eyes, but never have we showed Nancy's full body before. If you've always wondered what Nancy looks like - this is your chance. Don't worry, we promise we didn't spoil your mental image of her!

**DRESS UP NANCY** - Players get to pick outfits for Nancy so she'll blend in with the Venetian locals. They can also spend some of their hard earned Euros to buy more clothes and accessories. You might even need a few extra pieces to go undercover...

**SINGING GONDOLIERS** - In Venice gondoliers serenade passengers as they transport them to their destination. Hear professional opera singers, the game designer, and the creative director sing classical pieces - can you guess who is who?

**OUTTAKES** - Also known as the blooper reel for scenes that did not make it into the game. We give any details, but the designers want you to know that if you earn all the awards at the end of the game, you'll get to see an extended reel with all 9 outtakes.

### Nancy Drew Soundtrack Finally Available!
