

# Expose the Deception that a Death Should Have Silenced

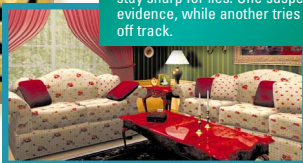

A family visit throws you, as Nancy Drew, into the scene of a crime that happened only last night. Jake Rogers is dead, and a secret died with him—or did it? Roll up your sleeves and dig into an engrossing, 3-D interactive mystery that's full of places to explore, puzzles to solve, suspects to question, and evidence to evaluate. A wily killer may still be on the loose...so keep your wits about you!

Explore every corner of each room you enter—you never know what clues lie in wait on a table, shelf, or wall.

Ask questions of everyone you meet, but stay sharp for lies. One suspect may offer evidence, while another tries to lead you off track.

Collect useful items from hidden cubbies and cabinets to find things that could help you in a pinch.
